

State Project No. H.008226
F.A.P. No. H008226
Cheniere Spillway and Bridge Replacement
Route LA 3033
Quachita Parish

Questions and Answers

Q1. According to the advertisement for State Project No. H.008226 Cheniere Spillway and Bridge Replacement, in regards to the Minimum Personnel Requirements listed on page 10, item 4 states:

At least one Principal or a responsible member of the Prime-Consultant must be Professional Civil Engineer, registered in the State of Louisiana, with a minimum of ten years of experience in the analysis, design, and inspection of dams and shall demonstrate experience in the State of Louisiana and knowledge of the DOTD's Dam Safety Rules and Regulations and a corresponding support staff.

Would DOTD consider this requirement being provided by a sub-consultant?

A1. Public Works wanted this requirement to be filled by the Prime only, not a sub consultant since the majority of work would be dam design.
